## RING SIZING GUIDE

This template will help you find out the size of any ring. Follow the instructions carefully to take the correct measurement.

Remember that you must have a ring to determine your size.

1. Print this sheet.
2. Before doing so, make sure this guide is printed LETTER size at $100 \%$
scale.
3. After printing, measure the scale on the right with a ruler to make sure

|  | 1 | 1 | 1 | 1 |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| 0 | 10 | 20 | 30 | 40 | 50 mm | that it measures exactly 50 mm .

4. If the measurement does not match, check the printer settings again and print the template again.

You have two ways to measure the size of your ring. The first one, is by fitting the inner circumference of the ring over the circles. To get the exact size, you must try from one size to the other, making sure that there is no space between both shapes and that also no parts of the circle are covered by the ring.

Tip: when you feel that the size is correct, try one size down, it should have a small white space between the circle and the ring.

Size 3

Size 3.5

Size 4
Size 4.5
Size 5

Size 5.5
Size 6

Size 6.5
Size 7
Size 7.5
Size 8

* Measurements match the inner edge of the ring.

The second way to measure your ring size is by measuring the inside circumference of your ring. You should place it on top of a meter or ruler and your ring size will be the number of millimeters you get.

## MEASUREMENT TABLE

|  |  |
| :---: | :---: |
| Inside Diameter | Size DS |
|  |  |
| $14,1 \mathrm{~mm}$ | 3 |
| $14,5 \mathrm{~mm}$ | 3.5 |
| 15 mm | 4 |
| $15,5 \mathrm{~mm}$ | 4.5 |
| 16 mm | 5 |
| $16,2 \mathrm{~mm}$ | 5.5 |
| $16,5 \mathrm{~mm}$ | 6 |
| 17 mm | 6.5 |
| $17,5 \mathrm{~mm}$ | 7 |
| $17,8 \mathrm{~mm}$ | 7.5 |
| 18.1 mm | 8 |
